

ANTI-DUMPING NOTICE NO. 2020/067

Public notice under section 269TC(4) of the *Customs Act 1901* (Cth)

**Aluminium zinc coated steel of a width equal to or greater
than 600 millimeters**

**Exported from the Republic of Korea, Taiwan and the
Socialist Republic of Vietnam**

**Initiation of Investigation No. 558 into alleged dumping and
subsidisation**

Customs Act 1901 (Cth) – Part XVB¹

I, Dale Seymour, the Commissioner of the Anti-Dumping Commission, have initiated an investigation following an application lodged by BlueScope Steel Limited (BlueScope), a manufacturer of aluminium zinc coated steel of a width equal to or greater than 600 millimeters (the goods) in Australia.

The application seeks the publication of a dumping duty notice in respect of the goods exported to Australia from the Republic of Korea (Korea), Taiwan and the Socialist Republic of Vietnam (Vietnam). The application also seeks the publication of a countervailing duty notice in respect of the goods exported to Australia from Vietnam.

The application alleges that the goods have been exported from Korea, Taiwan and Vietnam to Australia at prices less than their normal value, that the goods exported from Vietnam were in receipt of countervailable subsidies, and that the alleged dumping and subsidisation has caused material injury to the Australian industry producing like goods through:

- price suppression;
- price depression;
- reduced profits; and
- reduced probability.

¹ Unless stated otherwise, all legislative references in this notice are to the *Customs Act 1901* (Cth).

The non-confidential version of the application, which contains the basis of the alleged dumping and subsidisation and resulting injury, is available on the public record on the Commission's website.

Particulars of the reasons for the decision to initiate this investigation are in *Anti-Dumping Commission Consideration Report No. 558*, which is available on the public record.

The date of initiation of this investigation is the date of publication of this notice.

The Goods

The goods the subject of the application (the goods) are:

Flat rolled iron and steel products (whether or not containing alloys), of a width equal to or greater than 600 millimeters ("mm"), plated or coated with aluminium-zinc alloys, not painted, and whether or not including resin coating.

Trade or further generic names often used to describe the subject goods include:

- ZINCALUME® steel;*
- GALVALUME® steel;*
- Aluzinc, Supalume, Superlume, ZAM, GALFAN;*
- Zinc aluminium coated steel;*
- Aluminium zinc coated steel;*
- Aluminium zinc magnesium coated steel;*
- Alu-Zinc Steel sheet in Coils;*
- Al/Zn; and*
- Hot Dipped 55% Aluminium-Zinc Alloy coated steel sheet in coil.*

The imported goods the subject of this application covers aluminium zinc coated steel whether or not including any combination of surface treatment. For example, whether passivated (often referred to as chromated), resin coated or not resin coated (often referred to as Anti-Finger Print ("AFP") or not AFP), oiled or not oiled, skin-passed or not skin-passed.

Excluded from the goods description of this application is un-passivated (often referred to as unchromated) aluminium zinc coated steel.

The amount of aluminium zinc coating on the steel is described as its coating mass and is nominated in grams per meter squared (g/m^2), with the prefix being AZ (Aluminium Zinc). Common coating masses used are: AZ200, AZ150, AZ100, and AZ70.

There are several relevant International Standards for aluminium zinc coated steel, covering the full range of products via specific grade designations, and including the recommended or guaranteed properties of each of those product grades.

These relevant standards are noted in the table below.

International Standards	Product Grades
<i>General and Commercial Grades</i>	
AS/NZS 1397	G1, G2
ASTM A792	CS, type A, B and C
EN 10346	DX51D, DX52D
JIS 3321	SGLCC
<i>Forming, Pressing & Drawing Grades</i>	
AS/NZS 1397	G3
ASTM A792	FS, DS
EN 10346	DX53D, DX53D
JIS 3321	SGLCD, SGLCDD
<i>Structural Grades</i>	
AS/NZS 1397	G250, G300, G350, G450, G550
ASTM A792	33 (230), 37(255), 40 (275), 50 (340), 55 (380), 80 (550)
EN 10346	S220GD, S250GD, S280GD, S320GD, S350GD, S550GD
JIS 3321	SGLC400, SGLC440, SGLC490, SGLC570

Tariff Classifications of the imported goods

The goods are generally, but not exclusively, classified to the following tariff classifications in Schedule 3 to the *Customs Tariff Act 1995*:

- 7210.61.00 (statistical code 60, 61 and 62);
- 7225.99.00 (statistical code 39).

These tariff classifications and statistical codes may include goods that are both subject and not subject to this investigation. The listing of these tariff classifications and statistical codes are for convenience or reference only and do not form part of the goods described above. Please refer to the description of the goods for authoritative detail regarding goods the subject of this investigation.

Investigation Process

The investigation period is 1 April 2019 to 31 March 2020. I will examine exports to Australia of the goods during this period to determine whether dumping and subsidisation has occurred. I will examine details of the Australian market from 1 April 2016 for the purposes of injury analysis.

Where the Minister for Industry, Science and Technology (the Minister) is satisfied, as to goods of any kind, that:²

- (a) the amount of the export price of the goods that have already been exported to Australia is less than the normal value of those goods, and the amount of the export price of like goods that may be exported to Australia in the future may be less than the normal value of the goods; and
- (b) because of that, material injury to an Australian industry producing like goods has been or is being caused or is threatened, or the establishment of an Australian industry producing like goods has been or may be materially hindered;

the Minister may, by public notice, impose interim dumping duties.

Where the Minister is satisfied, as to goods of any kind, that:³

- (a) a countervailable subsidy has been received in respect of the goods that have been exported to Australia, and may be received in respect of like goods that may be exported to Australia in the future; and
- (b) because of that, material injury to an Australian industry producing like goods has been or is being caused or is threatened, or the establishment of an Australian industry producing like goods has been or may be materially hindered;

the Minister may, by public notice, impose interim countervailing duties.

Where there are grounds for the Minister to publish a dumping and countervailing duty notice in respect of the goods, I will examine whether the trade in the dumped or subsidised goods give rise to retrospective notices being published and make recommendations to the Minister accordingly.⁴

Proposed model control code structure

On 9 August 2018, the Commission advised in Anti-Dumping Notice (ADN) No. 2018/128 that a model control code (MCC) structure would be implemented in new investigations, reviews of exporters generally or continuations for cases initiated after this date, as required.⁵

As noted in that ADN, in developing the MCC structure the Commission will have regard to differences in physical characteristics that give rise to distinguishable and material differences in price. The Commission's proposed MCC structure is at **Appendix 1**.

² In accordance with section 269TG.

³ In accordance with section 269TJ.

⁴ In accordance with sections 269TG(1) and TJ(1).

⁵ Full guidance regarding the Commission's application of an MCC structure is provided in ADN No. 2018/128 on the Commission website, www.adcommission.gov.au.

Interested parties are also encouraged to make submissions on whether the proposed MCC structure should be accepted by the Commission in their particular circumstances. All submissions with respect to the proposed MCC structure will be considered by the Commission and reported in verification reports or in the Statement of Essential Facts (SEF).

The Commission welcomes submissions with respect to the proposed MCC structure. Submissions should be raised as soon as is practicable, but no later than **Thursday, 6 August 2020**, being the day submissions concerning this investigation are due.

Public Record

I must maintain a public record of each investigation. Documents included in the public record are available at www.adcommission.gov.au.

The public record will contain, among other things, a copy of the application, *Anti-Dumping Commission Consideration Report No. 558* and copies of all non-confidential submissions from interested parties. Letters and electronic mail are generally regarded as submissions if they contain information relevant to the investigation.

Lodgement of Submissions

Interested parties, as defined by section 269T(1), are invited to lodge submissions concerning the publication of the dumping and / or countervailing duty notice sought in the application, no later than the close of business **Thursday, 6 August 2020**, addressed to:

The Director
Investigations 4
GPO Box 2013
Canberra ACT 2601
Australia

or by email to: investigations4@adcommission.gov.au.

Interested parties wishing to participate in the investigation must ensure that submissions are lodged by the due date. Interested parties should note that I am not obliged to have regard to a submission received after the date above if to do so would, in my opinion, prevent the timely placement of the SEF on the public record.

Interested parties should also note that I am directed to consider the matters set out in the *Customs (Extensions of Time and Non-cooperation) Direction 2015* in certain circumstances.⁶ This is available at www.legislation.gov.au.

⁶ Certain powers and functions under the *Customs (Extensions of Time and Non-cooperation) Direction 2015* have been delegated to the Anti-Dumping Commission's General Managers (Anti-Dumping Notice No. 2017/10, available at www.adcommission.gov.au. refers).

Interested parties may reply to matters raised by other parties during the course of the investigation and in response to the SEF.

Interested parties claiming that information contained in their submission is confidential, or that the publication of the information would adversely affect their business or commercial interests, must:

- (i) provide a summary containing sufficient detail to allow a reasonable understanding of the substance of the information that does not breach that confidentiality or adversely affect those interests, or
- (ii) satisfy me that there is no way such a summary can be given to allow a reasonable understanding of the substance of the information.

Submissions containing confidential information must be clearly marked "FOR OFFICIAL USE ONLY".

Interested parties must lodge a non-confidential version or a summary of their submission in accordance with the requirement above (clearly marked "PUBLIC RECORD").

Lodgement of Exporter Questionnaires

Exporters of the goods to Australia are invited to participate in this investigation by completing the exporter questionnaire and the associated spreadsheets by **Thursday, 6 August 2020**.

The exporter questionnaire and the associated spreadsheets are available under the case information for ADC 558 (which can be found under 'current cases and their electronic public record' on the Commission website, www.adcommission.gov.au). Alternatively, exporters can email investigations4@adcommission.gov.au and the Commission will forward the exporter questionnaire and spreadsheets for completion.

Provisional Measures

Pursuant to section 269TD, I will make a preliminary affirmative determination (PAD) if I am satisfied that there appears to be sufficient grounds for the publication of a dumping or countervailing duty notice or there appears that there will be sufficient grounds for the publication of a dumping or countervailing duty notice subsequent to the importation of the goods into Australia. This can occur no earlier than day 60 of an investigation.

In accordance with section 269TD, the Commonwealth may apply provisional measures, including the taking of securities under section 42, in respect of interim dumping and countervailing duty that may become payable on the goods, where: a PAD has been made; and the Commissioner is satisfied that it is necessary to do so to prevent material injury to an Australian industry occurring while the investigation continues.

Where a PAD is not made 60 days after initiation of the investigation, the *Customs (Preliminary Affirmative Determinations) Direction 2015* (the PAD Direction) directs me to publish a status report providing reasons why a PAD was not made. The PAD Direction is available on the Federal Register of Legislation website, www.legislation.gov.au.

Statement of Essential Facts

The dates specified in this notice for lodging submissions must be observed to enable me to report to the Minister within the legislative timeframe. In accordance with section 269TDAA of the Act, a SEF will be placed on the public record by **Monday, 19 October 2020**,⁷ or by such later date as allowed in accordance with section 269ZHI.⁸ The SEF will set out the essential facts on which I propose to base my recommendations to the Minister. Interested parties are invited to lodge submissions in response to the SEF within 20 days of it being placed on the public record.

Submissions received in response to the SEF within 20 days of that statement being placed on the public record will be taken into account in completing the report and recommendation to the Minister.

Report to the Minister

A recommendation to the Minister will be made in a report on or before **Wednesday, 2 December 2020** (or such later date as allowed under section 269ZHI), on the basis of the examination of exportations of the goods to Australia during the investigation period, unless I terminate the investigation.

The Minister must make a declaration within 30 days after receiving the report, or such longer period as the Minister considers appropriate.

Anti-Dumping Review Panel

Certain persons will have the right to seek review with the Anti-Dumping Review Panel in accordance with Division 9 of Part XVB in relation to a decision by me to terminate the investigation or a decision of the Minister to publish or not to publish a dumping duty notice and countervailing duty notice after considering my report.

Interested Party List

Throughout the investigation, the Commission will maintain an internal list of interested parties. Updates on the investigation will be sent to parties on this list. If you would like to be added to the interested party list, please email investigations4@adcommission.gov.au.

⁷ Day 110 falls on a Sunday, therefore the effective due date is the next working day.

⁸ On 14 January 2017, certain powers and functions of the Minister under section 269ZHI were delegated to the Commissioner of the Anti-Dumping Commission. Refer to ADN No. 2017/10 for further information.

Anti-Dumping Commission Contact

Enquiries about this notice may be directed to the Case Manager at investigations4@adcommission.gov.au.

A handwritten signature in black ink, appearing to read "Dale Seymour". The signature is written in a cursive style with a long, sweeping tail on the final letter.

Appendix 1

Proposed model control code (MCC) structure

Item	Category	Sub-Category	Identifier	Sales Data	Cost Data	Key category
1	Prime	Prime	P	Mandatory	Not applicable	Yes
		Non-Prime	N			
2	Coating Mass	≤ 100 g/m ²	1	Mandatory	Mandatory	Yes
		>100 g/m ² to ≤ 165 g/m ²	2			
		>165 g/m ²	3			
3	Steel Grade	G2 / SGLCC	A	Mandatory	Mandatory	Yes
		G3 / SGLCD	B			
		G250 / SGLC 340	C			
		G300 / G350 / SGLC 400 / SGLC 440 / SGLC 490	D			
		G450 / G500	E			
		G550 / SGLC 570	F			
		Other	G			
4	Base Metal Thickness	< 0.40 mm	1	Mandatory	Mandatory	Yes
		≥ 0.40 mm to < 0.50 mm	2			
		≥ 0.50 mm to < 0.75 mm	3			
		≥ 0.75 mm to < 1.00 mm	4			
		≥ 1.00 mm to < 2.00 mm	5			
5	Width	< 600 mm	1	Mandatory	Mandatory	No
		≥ 600 mm	2			
6	Form	Coil	C	Mandatory	Optional	No
		Sheet	S			

MCC Example:

Prime	Coating Mass	Grade	Dimensions	Coil Type	MCC
Prime	150 g/m ²	G450	0.50 mm x 650 mm	Coil	P-2-E-3-2-C
