Initiation of an investigation into alleged dumping

Customs Act 1901 – Part XVB

I, Dale Seymour, the Commissioner of the Anti-Dumping Commission, have initiated an investigation following an application lodged by OneSteel Manufacturing Pty Ltd (subject to a Deed of Company Arrangement) (OneSteel), a manufacturer of steel rod in coils (the goods) in Australia. The application seeks the publication of a dumping duty notice in respect of steel rod in coils exported to Australia from the Republic of Indonesia (Indonesia), the Republic of Korea (Korea) and the Socialist Republic of Vietnam (Vietnam).

The application alleges that the goods have been exported to Australia at prices less than their normal value and that the dumping has caused material injury to the Australian industry through:

- loss of sales volume
- reduced market share
- price depression
- price suppression
- loss of profits
- reduced profitability
- reduced cash flow
- reduced employment
- reduced wages
- reduced capacity utilisation
- reduced return on investment and
- reduced investment.

The non-confidential version of the application, which contains the basis of the alleged dumping and injury, is available on the public record.

Particulars of the reasons for the decision to initiate this investigation are in *Anti-Dumping Commission Consideration Report No. 416*, which is available on the public record.

The date of initiation of this investigation is the date of publication of this notice, which is 7 June 2017

The Goods

The goods the subject of the application (the goods) are:

Hot rolled rods in coils of steel, whether or not containing alloys, that have maximum cross sections that are less than 14 mm.

The goods covered by this application include all steel rods meeting the above description of the goods regardless of the particular grade or alloy content.

Goods excluded from this application include hot-rolled deformed steel reinforcing bar in coil form, commonly identified as rebar or debar, and stainless steel in coils.

Tariff classification

The goods are generally, but not exclusively, classified to the following tariff classifications in Schedule 3 to the *Customs Tariff Act 1995*:

- 7213.91.00 (statistical code 44)
- 7227.90.90 (statistical codes 02, 42)

These tariff classifications and statistical codes may include goods that are both subject and not subject to this investigation. The listing of these tariff classifications and statistical codes are for convenience or reference only and do not form part of the goods description. Please refer to the goods description for authoritative detail regarding goods the subject of this investigation.

Investigation Process

The investigation period is 1 April 2016 to 31 March 2017. I will examine exports to Australia of the goods during this period to determine whether dumping has occurred. I will examine details of the Australian market from 1 January 2013 for injury analysis purposes.

Where the Assistant Minister for Industry, Innovation and Science and the Parliamentary Secretary to the Minister for Industry, Innovation and Science (the Parliamentary Secretary)¹ is satisfied, as to goods of any kind, that:

- (a) the amount of the export price of the goods that have already been exported to Australia is less than the normal value of those goods, and the amount of the export price of like goods that may be exported to Australia in the future may be less than the normal value of the goods; and

¹ On 19 July 2016, the Prime Minister appointed the Parliamentary Secretary to the Minister for Industry, Innovation and Science as the Assistant Minister for Industry, Innovation and Science. For the purposes of this investigation, the Minister is the Parliamentary Secretary to the Minister for Industry, Innovation and Science.

(b) because of that, material injury to an Australian industry producing like goods has been or is being caused or is threatened, or the establishment of an Australian industry producing like goods has been or may be materially hindered;

the Parliamentary Secretary may, by public notice, impose interim dumping duties.²

Where there are grounds for the Parliamentary Secretary to publish a dumping duty notice in respect of the goods, I will examine whether the trade in the dumped goods give rise to retrospective notices being published pursuant to section 269TN of the *Customs Act 1901* (the Act), and make recommendations to the Parliamentary Secretary accordingly.

As the application alleges matters relevant to the Parliamentary Secretary's consideration of the lesser duty rule I will examine these matters to inform the Parliamentary Secretary's consideration of the level of duty to be applied in any dumping duty notice.

Public Record

I must maintain a public record of each investigation. Documents included in the public record are available at www.adcommission.gov.au.

The public record will contain, among other things, a copy of the application, *Anti-Dumping Commission Consideration Report No. 416* and copies of all non-confidential submissions from interested parties. Letters and electronic mail are generally regarded as submissions if they contain information relevant to the investigation.

Lodgement of Submissions

Interested parties, as defined in subsection 269T(1) of the Act, are invited to lodge submissions concerning the publication of the dumping duty notice sought in the application, no later than the close of business on 14 July 2017, addressed to:

The Director
Investigations 1
GPO Box 2013
Canberra ACT 2601
Australia

or by email to operations1@adcommission.gov.au, or by fax to 03 8539 2499.

Interested parties wishing to participate in the investigation must ensure that submissions are lodged by the due date. Interested parties should note that I am not obliged to have regard to a submission received after the date above if to do so would, in my opinion, prevent the timely placement of the statement of essential facts on the public record.

² In accordance with section 269TG of the *Customs Act 1901*.

Interested parties should also note that I am directed³ to consider the matters set out in the *Customs (Extensions of Time and Non-cooperation) Direction 2015* in certain circumstances. This is available at www.legislation.gov.au.

Interested parties may reply to matters raised by other parties during the course of the investigation and in response to the statement of essential facts. Interested parties claiming that information contained in their submission is confidential, or that the publication of the information would adversely affect their business or commercial interests, must:

- (i) provide a summary containing sufficient detail to allow a reasonable understanding of the substance of the information that does not breach that confidentiality or adversely affect those interests, or
- (ii) satisfy me that there is no way such a summary can be given to allow a reasonable understanding of the substance of the information.

Submissions containing confidential information must be clearly marked "FOR OFFICIAL USE ONLY". Interested parties must lodge a non-confidential version or a summary of their submission in accordance with the requirement above (clearly marked "PUBLIC RECORD").

Lodgement of Exporter Questionnaires

Exporters of the goods to Australia are invited to participate in this investigation by completing the exporter questionnaire and the associated spreadsheets by 14 July 2017. The exporter questionnaire and the associated spreadsheets are available under the case information for ADC 416 (which can be found under 'Cases' on the Anti-Dumping Commission website, www.adcommission.gov.au). Alternatively, exporters can email operations1@adcommission.gov.au upon receipt of this notice and the Anti-Dumping Commission will forward the exporter questionnaire and spreadsheets for completion.

Provisional Measures

Pursuant to section 269TD of the Act, I will make a preliminary affirmative determination (PAD) provided I am satisfied that there appears to be sufficient grounds for the publication of a dumping duty notice or there appears that there will be sufficient grounds for the publication of a dumping duty notice subsequent to the importation of the goods into Australia. This can occur no earlier than day 60 of an investigation.

In accordance with section 269TD of the Act, the Commonwealth may apply provisional measures, including the taking of securities under section 42 of the Act, in respect of interim dumping duty that may become payable on the goods, where a PAD has been made.

³ Certain powers and functions under the *Customs (Extensions of Time and Non-cooperation) Direction 2015* have been delegated to the Anti-Dumping Commission's General Managers (Anti-Dumping Notice No. 2017/10, available at www.adcommission.gov.au refers).

Where a PAD is not made 60 days after initiation of the investigation, the *Customs (Preliminary Affirmative Determinations) Direction 2015* (the PAD Direction) directs me to publish a status report providing reasons why a PAD was not made. The PAD Direction is available on the Federal Register of Legislation website, www.legislation.gov.au.

The Parliamentary Secretary must make a declaration within 30 days after receiving the report, or such longer period as the Parliamentary Secretary considers appropriate.

Anti-Dumping Review Panel

Certain persons will have the right to seek review with the Anti-Dumping Review Panel in accordance with Division 9 of Part XVB of the Act of either a decision by me to terminate the investigation, or a decision of the Parliamentary Secretary to publish or not to publish a dumping duty notice after considering my report.
