

of softwood lumber products. We intend to rely on similar six-month periods to identify the countries subject to future reports on softwood lumber subsidies. For example, we will rely on U.S. imports of softwood lumber and softwood lumber products during the period January 1, 2023, through June 30, 2023, to select the countries subject for the next report.

Under U.S. trade law, a subsidy exists where an authority: (i) provides a financial contribution; (ii) provides any form of income or price support within the meaning of Article XVI of the GATT 1994; or (iii) makes a payment to a funding mechanism to provide a financial contribution to a person, or entrusts or directs a private entity to make a financial contribution, if providing the contribution would normally be vested in the government and the practice does not differ in substance from practices normally followed by governments, and a benefit is thereby conferred.¹

Parties should include in their comments: (1) the country which provided the subsidy; (2) the name of the subsidy program; (3) a brief description (no more than 3–4 sentences) of the subsidy program; and (4) the government body or authority that provided the subsidy.

Stainless Steel Sheet and Strip From the People's Republic of China: Final Scope Ruling and Final Affirmative Determination of Circumvention for Exports From the Socialist Republic of Vietnam

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) determines that certain stainless steel sheet and strip (SSSS) of Chinese-origin that has undergone further processing in the Socialist Republic of Vietnam (Vietnam) is merchandise covered by the scope of the antidumping duty (AD) and countervailing duty (CVD) orders on SSSS from the People's Republic of China (China). Additionally, Commerce determines that SSSS that is completed in Vietnam using certain non-subject stainless steel flat-rolled inputs sourced from China, is circumventing the AD/CVD orders on SSSS from China. As a result, SSSS of Chinese-origin that has undergone further processing or completion in Vietnam will be subject to suspension of liquidation effective May 15, 2020.

DATES: Applicable March 30, 2023.

FOR FURTHER INFORMATION CONTACT: Blaine Wiltse, Office of the Deputy Assistant Secretary for AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–6345.

SUPPLEMENTARY INFORMATION:

Background

On September 15, 2022, Commerce published the preliminary scope ruling and preliminary affirmative determination of circumvention of the AD/CVD orders on SSSS from China.¹ In the *Preliminary Determinations*, we preliminarily found, pursuant to 19 CFR 351.225(k)(1), that SSSS of Chinese-origin that has undergone further processing in Vietnam is covered by the

scope of the *Orders*.² Additionally, pursuant to section 781(b) of the Tariff Act of 1930, as amended (the Act), we preliminarily determined that SSSS completed in Vietnam using certain non-subject stainless steel flat-rolled inputs³ of Chinese-origin is circumventing the *Orders*.⁴

From December 5 through 9, 2022, Commerce conducted on-site verifications of the information submitted by the mandatory respondents, POSCO VST Co, Ltd. and POSCO Vietnam Processing Center, Ltd., at these companies' facilities located outside Ho Chi Minh City, Vietnam.⁵ On December 29, 2022, Commerce extended the deadline for the final determinations of these circumvention and scope inquiries to April 4, 2023.⁶

On February 13, 2023, we received a case brief from Outokumpu Stainless USA LLC (Outokumpu), in which Outokumpu expressed its support of the *Preliminary Determinations*.⁷ Commerce also received a letter in support of Outokumpu's case brief from North American Stainless.⁸ No other interested parties commented on the *Preliminary Determinations*. Accordingly, we received no comments in opposition to our *Preliminary Determinations* and no requests for a public hearing from interested parties within the time period set forth in the *Preliminary Determinations*. Given that

we received no comments in opposition to the *Preliminary Determinations*, we do not find it necessary to discuss these comments, which were in support of Commerce's decisions.

Scope of the Orders⁹

The product covered by the *Orders* is stainless steel sheet and strip. Subject merchandise includes SSSS that has been further processed in a third country, including but not limited to cold-rolling, annealing, tempering, polishing, aluminizing, coating, painting, varnishing, trimming, cutting, punching, and/or slitting, or any other processing that would not otherwise remove the merchandise from the scope of the *Orders* if performed in the country of manufacture of the SSSS. Excluded from the scope of the *Orders* are the following: (1) sheet and strip that is not annealed or otherwise heat treated and not pickled or otherwise descaled; (2) plate (*i.e.*, flat-rolled stainless steel products of a thickness of 4.75 mm or more); and (3) flat wire (*i.e.*, cold-rolled sections, with a mill edge, rectangular in shape, of a width of not more than 9.5 mm). For a complete description of the scope of the *Orders*, see Appendix I.¹⁰

Merchandise Subject to the Circumvention Inquiry

This circumvention inquiry covers SSSS completed in Vietnam using certain non-subject stainless steel flat-rolled inputs of Chinese-origin that is subsequently exported from Vietnam to the United States.

Merchandise Subject to the Scope Inquiry

This scope inquiry covers SSSS of Chinese-origin that has undergone further processing in Vietnam (including but not limited to cold-rolling, annealing, tempering, polishing, aluminizing, coating, painting, varnishing, trimming, cutting, punching, and/or slitting, or any other processing that would not otherwise remove the merchandise from the scope of the *Orders*) that is subsequently exported to the United States.

Methodology

We conducted these circumvention and scope inquiries in accordance with section 781(b) of the Act, and 19 CFR 351.225(h), 351.225(b), and

351.225(k)(1).¹¹ For a full description of the methodology underlying Commerce's final determinations, see the Preliminary Decision Memorandum.¹² The Preliminary Decision Memorandum is a public document and on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

Final Determinations

As detailed in the *Preliminary Determinations*, pursuant to 19 CFR 351.225(k)(1), we continue to find that SSSS of Chinese-origin that has undergone further processing in Vietnam is covered by the scope of the *Orders*. Additionally, pursuant to section 781(b) of the Act, we determine that SSSS completed in Vietnam using certain non-subject stainless steel flat-rolled inputs of Chinese-origin is circumventing the *Orders*. Therefore, we determine that it is appropriate to include this merchandise within the scope of the *Orders* and to instruct U.S. Customs and Border Protection (CBP) to continue to suspend any entries of merchandise produced using Chinese-sourced inputs and exported from Vietnam to the United States. For a full description of the methodology underlying our conclusions, see the Preliminary Decision Memorandum.

Further, because Hoangvu Co., Ltd. (Hoangvu) and SK Networks Co., Ltd. (SK Networks) did not cooperate to the best of their ability in responding to Commerce's requests for information, we have based our determinations with respect to these companies on the facts available, with adverse inferences, pursuant to sections 776(a) and (b) of

the Act. In particular, as adverse facts available (AFA), we find that the SSSS exported to the United States by Hoangvu and SK Networks from Vietnam is merchandise covered by the scope of the *Orders*. Additionally, as AFA, we find that finished SSSS products exported by Hoangvu and SK Networks are completed in Vietnam using certain non-subject stainless steel flat-rolled inputs of Chinese-origin, and thus, are circumventing the *Orders*. Furthermore, as AFA, we continue to determine that Hoangvu and SK Networks, and their importers, are ineligible to certify that the SSSS exported by Hoangvu and SK Networks from Vietnam was produced using non-Chinese sourced inputs.

Continued Suspension of Liquidation

In accordance with 19 CFR 351.225(l)(3), based on these final determinations in these circumvention and scope inquiries, Commerce will direct CBP to continue to suspend liquidation and to require a cash deposit of estimated duties on unliquidated entries of SSSS completed in Vietnam using inputs manufactured in China, subsequently exported from Vietnam to the United States, and entered, or withdrawn from warehouse, for consumption on or after May 15, 2020, the date of publication of the notice of initiation of these scope and circumvention inquiries.¹³ The suspension of liquidation will remain in effect until further notice.

SSSS that is further processed or completed in Vietnam from stainless steel flat-rolled inputs that are not of Chinese-origin is not subject to these inquiries. Therefore, cash deposits are not required for such merchandise subject to certification requirements set forth below.¹⁴

For these final determinations, we continue to implement the certification process outlined in the *Preliminary Determinations*. Specifically, if an importer of SSSS from Vietnam claims that the SSSS was not produced using any stainless steel flat-rolled inputs of Chinese-origin, in order to not be subject to cash deposit requirements, the importer and exporter must meet the certification and documentation requirements described in Appendix II. An exporter of SSSS produced in Vietnam claiming that its SSSS was not

¹¹ On September 20, 2021, Commerce significantly revised its regulations pertaining to circumvention and scope inquiries, with an effective date of November 4, 2021. See *Regulations to Improve Administration and Enforcement of Antidumping and Countervailing Duty Laws*, 86 FR 52300 (September 20, 2021). The newly promulgated 19 CFR 351.226 applies to circumvention inquiries for which a circumvention request is filed, as well as any circumvention inquiry self-initiated by Commerce, on or after November 4, 2021. The amendments to 19 CFR 351.225 apply to scope inquiries for which a scope ruling application is filed, as well as any scope inquiry self-initiated by Commerce, on or after November 4, 2021. We note that these circumvention and scope inquiries were initiated prior to the effective date of the new regulations, and, thus, any reference to the regulations is to the prior version of the regulations.

produced using any stainless steel flat-rolled inputs of Chinese-origin must prepare and maintain an Exporter Certification and documentation supporting the Exporter Certification (see Appendix IV). Additionally, importers of such SSSS must prepare and maintain an Importer Certification (see Appendix III), as well as documentation supporting the Importer Certification. In addition to the Importer Certification, the importer must also maintain a copy of the Exporter Certification (see Appendix IV) and relevant supporting documentation from its exporter of SSSS produced from stainless steel flat-rolled inputs that are not of Chinese-origin.

As described above, the two uncooperative and non-responsive companies (*i.e.*, Hoangvu and SK Networks), along with their importers, are not eligible to participate in the certification process at this time. These companies may request reconsideration of our denial of the certification process in a future segment of the proceeding, *i.e.*, a changed circumstances review or administrative review.¹⁵

Administrative Protective Order

This notice will serve as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction or APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

These final scope and affirmative circumvention determinations are issued and published in accordance with section 781(b) of the Act and 19 CFR 351.225(f) and (h).

Appendix I

Scope of the Orders

The merchandise covered by the *Orders* is stainless sheet and strip, whether in coils or straight lengths. Stainless steel is an alloy steel containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements. The subject sheet and strip is a flat-rolled product with a width that is greater than 9.5 mm and with a thickness of 0.3048 mm and greater but less than 4.75 mm, and that is annealed or otherwise heat treated, and pickled or otherwise descaled. The subject sheet and strip may also be further processed (*e.g.*, cold-rolled, annealed, tempered, polished, aluminized, coated, painted, varnished, trimmed, cut, punched, or slit, *etc.*) provided that it maintains the specific dimensions of sheet and strip set forth above following such processing. The products described include products regardless of shape, and include products of either rectangular or non-rectangular cross-section where such cross-section is achieved subsequent to the rolling process, *i.e.*, products which have been “worked after rolling” (*e.g.*, products which have been beveled or rounded at the edges).

For purposes of the width and thickness requirements referenced above: (1) where the nominal and actual measurements vary, a product is within the scope if application of either the nominal or actual measurement would place it within the scope based on the definitions set forth above; and (2) where the width and thickness vary for a specific product (*e.g.*, the thickness of certain products with non-rectangular cross-section, the width of certain products with non-rectangular shape, *etc.*), the measurement at its greatest width or thickness applies.

All products that meet the written physical description, and in which the chemistry quantities do not exceed any one of the noted element levels listed above, are within the scope of the *Orders* unless specifically excluded.

Subject merchandise includes stainless sheet and strip that has been further processed in a third country, including but not limited to cold-rolling, annealing, tempering, polishing, aluminizing, coating, painting, varnishing, trimming, cutting, punching, and/or slitting, or any other processing that would not otherwise remove the merchandise from the scope of the *Orders* if performed in the country of manufacture of the stainless sheet and strip.

Excluded from the scope of the *Orders* are the following: (1) sheet and strip that is not annealed or otherwise heat treated and not pickled or otherwise descaled; (2) plate (*i.e.*, flat-rolled stainless steel products of a thickness of 4.75 mm or more); and (3) flat wire (*i.e.*, cold-rolled sections, with a mill edge, rectangular in shape, of a width of not more than 9.5 mm).

The products under the *Orders* are currently classifiable under Harmonized

Appendix II

Certification Requirements

If a company imports stainless steel sheet and strip (SSSS) from Vietnam and claims that the entry was not produced from Chinese-sourced stainless steel flat-rolled inputs and, thus, is not subject to the antidumping duty (AD) and countervailing duty (CVD) orders¹⁶ on SSSS from China, then the importer is required to complete and maintain the Importer Certification attached hereto as Appendix III and retain all supporting documentation. The importer is further required to maintain a copy of the Exporter Certification, attached as Appendix IV, and retain all supporting documentation. The Importer Certification must be completed, signed, and dated by the time of filing of the entry summary for the relevant importation. Where the importer uses a broker to facilitate the entry process, it should obtain the entry number from the broker. Agents of the importer, such as brokers, however, are not permitted to make this certification on behalf of the importer.

All importers of SSSS from Vietnam are eligible for the certification process detailed below, with the exception that entries of SSSS produced and/or exported by Hoangvu Co., Ltd. and SK Networks Co., Ltd. are ineligible for certification.

The exporter is required to complete and maintain the Exporter Certification, attached as Appendix IV, and is further required to provide the importer a copy of that certification and all supporting documentation (*e.g.*, invoice, purchase order, production records, *etc.*). The Exporter Certification must be completed, signed, and

¹⁶ See *Stainless Steel Sheet and Strip from the People's Republic of China: Antidumping Duty Order*, 82 FR 16160 (April 3, 2017); see also *Stainless Steel Sheet and Strip from the People's Republic of China: Countervailing Duty Order*, 82 FR 16166 (April 3, 2017) (collectively, *Orders*).

dated by the time of shipment of the relevant entries (except as noted below). The Exporter Certification should be completed by the party selling the subject merchandise manufactured in Vietnam to the United States.

The importer will not be required to submit the certifications or supporting documentation to U.S. Customs and Border Protection (CBP) as part of the entry process. However, the importer and exporter will be required to present the certifications, and supporting documentation, to the U.S. Department of Commerce (Commerce) and/or CBP, as applicable, upon request by the respective agency. Additionally, the claims made in the certifications and any supporting documentation are subject to verification by Commerce and/or CBP. The importer and exporter are required to maintain the certifications and supporting documentation for the later of: (1) a period of five years from the date of entry; or (2) a period of three years after the conclusion of any litigation in United States courts regarding such entries.

For SSSS exported from Vietnam that was produced using Chinese-sourced stainless steel flat-rolled inputs subject to this inquiry that has been found to be circumventing the *Orders*, Commerce has established the following third-country case numbers in the Automated Commercial Environment (ACE): A-552-042 and C-552-043. For SSSS exported from Vietnam that is merchandise covered by the scope of the *Orders*, where the country of origin does not change for CBP's reporting purposes, importers should report such entries under the case numbers for the *Orders*: A-570-042 and C-570-043. For SSSS exported from Vietnam that is merchandise covered by the scope of the *Orders*, where the country-of-origin changes for CBP's reporting purposes, importers should report such entries under the following third-country case numbers: A-552-042 and C-552-043.

If it is determined that the certification and/or documentation requirements in a certification have not been met, Commerce intends to instruct CBP to suspend, under the appropriate case numbers, either those established for the *Orders*, A-570-042/C-570-043, or the third country case numbers, A-552-042/C-552-043, all unliquidated entries for which these requirements were not met and require the importer to post applicable AD and CVD cash deposits equal to the rates as determined by Commerce. Entries suspended under A-570-042/C-570-043/A-552-042/C-552-043 will be liquidated pursuant to applicable administrative reviews of the *Orders* or through the automatic liquidation process.

For shipments and/or entries suspended pursuant to the preliminary determinations of these scope and circumvention inquiries that were shipped and/or entered, or withdrawn from warehouse, for consumption during the period on or after May 15, 2020 (the date of initiation of these scope and circumvention inquiries) through the date of publication of the preliminary determination in the **Federal Register**, for which certifications are required, importers and exporters should complete the required certification, as soon as practicable but not

later than 45 days after the publication of the preliminary determinations in the **Federal Register**. Accordingly, where appropriate, the relevant bullet in the certification should be edited to reflect that the certification was completed within this time frame.

Specifically, exporters should complete the language in Paragraph G in the Exporter Certification that reads: "The shipments/products referenced herein shipped before mm/dd/yyyy, the date on which Commerce published notice of its preliminary scope and circumvention findings in the **Federal Register**. This certification was completed on mm/dd/yyyy, within 45 days of the **Federal Register** notice publication." For such entries/shipments, importers and exporters each have the option to complete a blanket certification covering multiple entries/shipments, individual certifications for each entry/shipment, or a combination thereof. The Exporter Certifications should be maintained by both the importer and exporter and provided to CBP or Commerce only upon request by the respective agency. The exporter must provide the importer a copy of the Exporter Certification within 45 days of the publication of the preliminary determination in the **Federal Register**.

For shipments and/or entries suspended pursuant to the preliminary determinations of these scope and circumvention inquiries that were shipped and/or entered, or withdrawn from warehouse, for consumption within 30 days of the date of publication of the preliminary determination in the **Federal Register**, for which certifications are required, importers and exporters should complete the required certification, as soon as practicable but not later than 45 days after the publication of the preliminary determinations in the **Federal Register**.

For shipments and/or entries after 30 days from the date of publication of the preliminary determination in the **Federal Register**, for which certifications are required, importers and exporters should complete the required certification at or prior to the date of entry summary and exporters should complete the required certification

and provide it to the importer at or prior to the date of shipment. Specifically, exporters should complete the language in Paragraph G in the Exporter Certification that reads: "I understand that {EXPORTING COMPANY} must provide this Exporter Certification to the U.S. importer by the time of shipment."

For unliquidated entries (and entries for which liquidation has not become final) of merchandise entered as non-AD/CVD type entries (e.g., type 01) that were shipped and/or entered, or withdrawn from warehouse, for consumption in the United States during the period, May 15, 2020 (the date of initiation of these scope and circumvention inquiries) through the date of publication of the preliminary determination in the **Federal Register**, that is merchandise covered by the scope of the *Orders* or was produced using Chinese-sourced stainless steel flat-rolled inputs subject to this inquiry that have been found to be circumventing the *Orders*, importers should file a Post Summary Correction with CBP, in accordance with CBP's regulations, regarding conversion of such entries from non-AD/CVD type entries to AD/CVD type entries (e.g., type 01 to type 03). For such shipments, the Exporter Certifications should be completed as soon as practicable, but not later than 45 days after publication of the preliminary determination in the **Federal Register**. Importers should report those AD/CVD type entries of merchandise that is covered by the scope of the *Orders*, under the case numbers for the *Orders*, A-570-042/C-570-043, or A-552-042/C-552-043, as appropriate. Importers should report those AD/CVD type entries that were produced using Chinese-sourced stainless steel flat-rolled inputs subject to this inquiry that have been found to be circumventing the *Orders*, using the third-country case numbers, A-552-042/C-552-043. Similarly, the importer should pay cash deposits on those entries consistent with the regulations governing post summary corrections that require payment of additional duties.

Importer Certification

I hereby certify that:

A. My name is {IMPORTING COMPANY OFFICIAL'S NAME} and I am an official of {IMPORTING COMPANY}, located at {ADDRESS OF IMPORTING COMPANY};

B. I have direct personal knowledge of the facts regarding the importation into the Customs territory of the United States of the stainless steel sheet and strip (SSSS) produced in Vietnam that entered under entry summary number(s), identified below, and are covered by this certification. "Direct personal knowledge" refers to facts the certifying party is expected to have in its own records. For example, the importer should have "direct personal knowledge" of the importation of the product (e.g., the name of the exporter) in its records;

Public Meeting of the Ocean Exploration Advisory Board

AGENCY: Office of Oceanic and Atmospheric Research (OAR), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice of public meeting.

SUMMARY: This notice sets forth the schedule and proposed agenda for a meeting of the Ocean Exploration Advisory Board (OEAB). OEAB members will discuss and provide advice on the Federal ocean exploration program, with a particular emphasis on the topics identified in the section on *Matters to Be Considered*.

DATES: The announced meeting is scheduled for Tuesday, April 25, 2023 and April 26, 2023 from 9:00 a.m.–4:00 p.m. (EDT).

ADDRESSES: This will be an in-person meeting. Information about how to participate or observe virtually will be posted to the OEAB website at <https://oeab.noaa.gov/>.

FOR FURTHER INFORMATION CONTACT: Mr. David Turner, Designated Federal Officer, Ocean Exploration Advisory Board, National Oceanic and Atmospheric Administration, David.Turner@NOAA.gov or (859) 327-9661.

SUPPLEMENTARY INFORMATION: NOAA established the OEAB under the Federal Advisory Committee Act (FACA) and legislation that gives the agency statutory authority to operate an ocean exploration program and to coordinate a national program of ocean exploration. The OEAB advises NOAA leadership on strategic planning, exploration priorities, competitive ocean exploration grant programs, and other matters as the NOAA Administrator requests.

OEAB members represent government agencies, the private sector, academic institutions, and not-for-profit institutions involved in all facets of ocean exploration—from advanced technology to citizen exploration.

In addition to advising NOAA leadership, NOAA expects the OEAB to help to define and develop a national program of ocean exploration—a network of stakeholders and

partnerships advancing national priorities for ocean exploration.

Matters To Be Considered: The OEAB will receive an overview and implications of the FY22 National Defense Authorization Act; be briefed on the status of the Ocean Exploration Cooperative Institute; identify and develop meaningful performance indicators for the national Ocean Exploration program; discuss ideas for incentivizing data operability across the Ocean Exploration community; and, propose a set of recommendations to improve data availability among government, commercial, academic, and philanthropic entities. The board will discuss and deliberate on these topics. The agenda and other meeting materials will be made available on the OEAB website at <https://oeab.noaa.gov/>.

Status: The meeting will be open to the public via remote access. Please check the agenda on the OEAB website to confirm the public comment period schedule.

The OEAB expects that public statements at its meetings will not be repetitive of previously submitted verbal or written statements. In general, each individual or group making a verbal presentation will be limited to three minutes. The Designated Federal Officer must receive written comments by April 17, 2023, to provide sufficient time for OEAB review. Written comments received after April 17, 2023, will be distributed to the OEAB but may not be reviewed prior to the meeting date. Comments should be submitted to Designated Federal Officer David.Turner@NOAA.gov.

Special Accommodations: Requests for sign language interpretation or other auxiliary aids should be directed to the Designated Federal Officer by April 17, 2023.

David Holst,

*Chief Financial and Administrative Officer,
Office of Oceanic and Atmospheric Research,

Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to Marine Site Characterization Surveys Offshore of New Jersey and New York

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; proposed incidental harassment authorization; request for comments on proposed authorization and possible renewal.

SUMMARY: NMFS has received a request from Atlantic Shores Offshore Wind, LLC (Atlantic Shores) for authorization to take marine mammals incidental to marine site characterization offshore of New Jersey and New York in the Bureau of Ocean Energy Management (BOEM) Commercial Lease of Submerged Lands for Renewable Energy Development on the Outer Continental Shelf (OCS) Lease Area OCS-A 0499 and OCS-A 0549 and associated export cable route (ECR) area. The activities described in Atlantic Shores' request, the overall survey duration, the project location, and the acoustic sources proposed for use are identical to what was previously analyzed in support of the IHA issued by NMFS to Atlantic Shores for the 2022 site characterization surveys (2022 IHA). All proposed mitigation, monitoring, and reporting requirements remain the same. While Atlantic Shores' planned activity would qualify for renewal of the 2022 IHA, due to the availability of updated marine mammal density data (<https://seamap.env.duke.edu/models/Duke/EC/>), which NMFS has determined represents the best available scientific data. NMFS has determined it appropriate to provide a 30-day period for the public to comment on this proposed action. Pursuant to the Marine Mammal Protection Act (MMPA), NMFS is requesting comments on its proposal to issue an IHA to incidentally take marine mammals during the specified activities. NMFS is also requesting comments on a possible one-year renewal IHA that could be issued under certain circumstances and if all requirements are met, as described in *Request for Public Comments* at the end of this notice. NMFS will consider public comments prior to making any final decision on the issuance of the requested MMPA authorization and
