**INITIATION NOTIFICATION**  
**Case No. – SG-01/2024**

**Subject: Initiation of safeguard investigation concerning imports of “Non-Alloy and Alloy Steel Flat Products” into India.**

**F. No. 22/01/2024-DGTR.** The Indian Steel Association (“ISA” or the “Applicant”), on behalf of its Members, namely, *a) ArcelorMittal Nippon Steel India Limited, b) AMNS Khopoli Limited, c) JSW Steel Limited, d) JSW Steel Coated Products Limited, e) Bhushan Power & Steel Limited, f) Jindal Steel and Power Limited, and g) Steel Authority of India Limited* (collectively referred to as “applicant companies”) has filed an application under Section 8B of Customs Tariff Act, 1975 (hereinafter referred to as “the Act”), read with the Customs Tariff (Identification and Assessment of Safeguard Duty) Rules, 1997 (hereinafter referred to as “the Rules”) seeking imposition of Safeguard Duty on imports of “**Non-Alloy and Alloy Steel Flat Products**” (hereinafter referred to as “PUC” or “Product Under Consideration”) into India.

2. The Applicant alleges that there is a recent, sudden, sharp and significant increase in the volume of imports, which has caused significant injury to the domestic industry in India. The Applicant further alleges that imports have taken place in such increased quantities and under such circumstances as to cause or threaten to cause serious injury to the domestic industry. They have sought imposition of safeguard duties to protect the domestic industry engaged in the production of like articles or directly competitive products from such serious injury and threat thereof being caused by the imports of PUC.

**(A) PRODUCT UNDER CONSIDERATION AND LIKE ARTICLE**

3. The product under consideration for the present investigation is “**Non-Alloy and Alloy Steel Flat Products**”, (“PUC”), which includes (a) Hot Rolled (“HR”) coils, sheets and plates, (b) HR Plate Mill Plates (“PMP”), (c) Cold Rolled (“CR”) coils and sheets, (d) Metallic Coated Steel coils and sheets, whether or not profiled, including Galvanneal, Coated with Zinc or Aluminium-Zinc or Zinc-Aluminium-Magnesium (“Coated”), and (e) Colour Coated coils and sheets, whether or not profiled (“CC”).
4. The following products are *excluded* from the scope of the PUC:
- a) Cold Rolled Grain Oriented Electrical Steel (CRGO)

- b) Cold Rolled Non-Oriented Electrical Steel (CRNO) coils and sheets
- c) Coated - Electro Galvanized steel
- d) Tinplate
- e) Stainless steel

5. The Applicant has claimed that there are no known differences between the imported goods and the products manufactured by the Indian industry. The two products are comparable in terms of product characteristics such as physical and chemical characteristics, manufacturing process and technology, functions and uses, product specifications, pricing, distribution and marketing and tariff classification. *Prima facie*, for the purposes of the present investigation, the goods manufactured by the domestic industry are being treated as 'like articles' to the imported goods.
6. The PUC falls under the HSN tariff headings 7208, 7209, 7210, 7211, 7212, 7225 and 7226. The tariff headings are indicative only and not binding on the Authority.
7. The PUC is used *inter alia* in general engineering and fabrication, pipe manufacturing, construction, capital goods, automotive industry, tractors, bicycles, appliances, furniture, electrical panels, packaging, drums, barrels, general engineering, substrate for coating, colour coating galvanizing, metal-coating / plating, roofing application, appliances, renewable energy, walling, panelling, cladding and decking, automotive, white goods and appliances, furniture, etc.

**(B) DOMESTIC INDUSTRY AND STANDING**

8. *Prima facie*, the domestic industry collectively account for a major share of the total domestic production of the like article in India and constitute the domestic industry in terms of Section 8B(11)(b) of the Customs Tariff Act, 1975.

**(C) PERIOD OF INVESTIGATION (POI)**

9. The most recent period or the period of investigation (POI) for the present investigation is 1<sup>st</sup> October 2023 to 30<sup>th</sup> September 2024. The Authority will examine data pertaining to 1<sup>st</sup> April 2021 to 31<sup>st</sup> March 2022, 1<sup>st</sup> April 2022 to 31<sup>st</sup> March 2023, 1<sup>st</sup> April 2023 to 31<sup>st</sup> March 2024 and the POI in this investigation.

**(D) INCREASE IN IMPORTS AS A RESULT OF UNFORESEEN DEVELOPMENTS AND EFFECT OF OBLIGATIONS**

10. The Applicant has claimed that there is recent, sudden, sharp and significant increase in imports of PUC during the period of investigation and the most recent period as a result of unforeseen developments and of an effect of obligations incurred under GATT 1994. The Applicant has further stated that:
- i. Starting from the imposition of 25% duty under Section 232 by the United States of America under its Trade Expansion Act, 1962, several countries have imposed multiple trade remedy measures against imports of steel products. The

evidence indicates that 129 trade remedy measures have been imposed by various countries against steel products between 2019 to 2023.

- ii. The existence of significant excess capacity far exceeding domestic consumption in China, Japan and South Korea have arisen, inter alia, due to slowing demand in those countries;
  - iii. China's recent domestic policy measures resulted in a decline of consumption of long steel products that are mainly used in real-estate sector. To mitigate the decline in steel consumption in long products, Chinese steel companies shifted significant percentage of their production from long products to flat products, which is being exported to global markets.
  - iv. ASEAN is expected to significantly increase crude steel production capacity, with 75% of the region's planned capacity expansion related to investments by Chinese companies. ASEAN is the top region among cross-border investments by Chinese steel companies who are investing heavily in steel projects abroad and the capacity in ASEAN is expected to increase to levels that far exceed the region's steel demand.
  - v. The Applicant submits that India has incurred several obligations under GATT 1994 and other covered agreements. The implementation of those obligations, including but not limited to obligations under Article I:1, Article II:1(b), Articles XXIV:4, XXIV:8, and XXIV:12 of GATT 1994, individually and collectively have led to the circumstances leading to the increase in imports of PUC.
  - vi. The confluence of all the above unforeseen developments and effect of obligations have resulted in a recent, sudden, sharp and significant increase in imports of PUC into India.
11. *Prima facie*, the Authority notes that the Applicants have provided sufficient evidence to demonstrate that the above unforeseen developments have led to a recent, sudden, sharp and significant increase in imports of the PUC.

**(E) SERIOUS INJURY, THREAT OF SERIOUS INJURY AND CAUSAL LINK**

12. The Applicants claim that there is a recent, sudden, sharp and significant increase in imports of the PUC, which is causing serious injury to the domestic industry. The Applicants further claim that the increased imports also pose a further threat of serious injury.
13. *Prima facie*, after examining the accuracy and adequacy of the evidence provided in the application, the Authority, is satisfied that sufficient evidence exists that there is a recent, sudden, sharp and significant increase in volume of imports as a result of unforeseen developments causing serious injury and a threat of serious injury to domestic industry.

**(F) INITIATION OF THE SAFEGUARD INVESTIGATION**

14. On the basis of the duly substantiated application filed by the Applicant, and having satisfied itself on the basis of evidence provided therein, the Authority considers that there is sufficient *prima facie* evidence to justify the initiation of the safeguard investigation under the Customs Tariff Act, 1975 and the Customs Tariff (Identification and Assessment of Safeguard Duty) Rules, 1997 to determine whether unforeseen developments have resulted in a sudden, sharp and significant increase in imports in recent periods, and whether such increased imports have caused serious injury or pose a threat of serious injury to the domestic industry. The applicant has requested for the imposition of provisional measures citing the existence of critical circumstances. Further, the applicant has requested imposition of safeguard measures for a period of four years. The applicant has also provided an adjustment plan since they have sought imposition of safeguard duties for a period exceeding one year.
