ALUMINUM EXTRUSIONS FROM CHINA, COLOMBIA, ECUADOR, INDIA, INDONESIA, ITALY, MALAYSIA, MEXICO, SOUTH KOREA, TAIWAN, THAILAND, TURKEY, UNITED ARAB EMIRATES, AND VIETNAM DO NOT INJURE U.S. INDUSTRY, SAYS USITC

The U.S. International Trade Commission (USITC) today determined that a U.S. industry is not materially injured or threatened with material injury by reason of imports of aluminum extrusions from China, Colombia, Ecuador, India, Indonesia, Italy, Malaysia, Mexico, South Korea, Taiwan, Thailand,

Turkey, United Arab Emirates, and Vietnam that the U.S. Department of Commerce (Commerce) has determined are sold in the United States at less than fair value, and subsidized by the Governments of China, Indonesia, Mexico, and Turkey.

Commissioners David S. Johanson and Jason E. Kearns voted in the negative. Chair Amy A. Karpel voted in the affirmative. Commissioner Rhonda K. Schmittlein did not participate.

As a result of the Commission's negative determinations, Commerce will not issue antidumping duty orders on imports of this product from China, Colombia, Ecuador, India, Indonesia, Italy, Malaysia, Mexico, South Korea, Taiwan, Thailand, Turkey, United Arab Emirates, and Vietnam, and countervailing duty orders on imports of this product from China, Indonesia, Mexico, and Turkey.

The Commission's public report *Aluminum Extrusions from China, Colombia, Ecuador, India, Indonesia, Italy, Malaysia, Mexico, South Korea, Taiwan, Thailand, Turkey, United Arab Emirates, and Vietnam* (Inv. Nos. 701-TA-695-698 and 731-TA-1643-1644 and 1646-1657 (Final), USITC Publication 5560, November 2024) will contain the views of the Commission and information developed during the investigation.

The report will be available by December 10, 2024; when available, it may be accessed on the USITC website at: http://pubapps.usitc.gov/applications/publogs/qry_publication_loglist.asp.

Status of proceedings, links to relevant documents, and additional information for these investigations can be found at the Commission's [Investigations Database System \(IDS\)](#).
